

**BRACEBRIDGE RESOURCE MANAGEMENT CENTRE
TRAIL GROOMING UPDATE
March 8, 2023**

Grooming Update:

Due to recent high winds the Cross-Country ski trails are strewn with debris. There are many sticks, leaves, pine needles and branches down. Conditions are poor to dangerous as these items cause sticking, while underneath the tracks are icy.

Until more snow arrives and volunteer groomers are able to make new track sets, it is recommended to avoid using the trails for cross country skiing.

Snowshoers are welcome to use the bike trails to help pack down the trails for Fat bikes.

Hikers/dog walkers without snowshoes are asked to please avoid walking through the cross-country tracks and groomed bike trails as they cause divots in groomed trails without the aid of snowshoes.

For further information, call the Bracebridge Sportsplex 705-645-3037.
