

Notice: Muskoka Off Road Cycling Association - Trail Construction

Effective immediately Muskoka Off Road Cycling Association (MORCA) will be working out of the Holiday Park Drive, Bracebridge Resource Management Centre (BRMC) parking lot for the purposes of creating single track mountain bike trails.

The town of Bracebridge has obtained a work permit from the MNRF to create 8km of new single track mountain bike trails in the BRMC over the next two years. MORCA has received support from the Town of Bracebridge to act as the constructor. The planned trail route is below:

We are beginning work on the trails this weekend. The work will consist of:

- Improving the path through the wet area to allow dry access without traveling on the hwy 11 road allowance.
- Identifying and brushing the existing double track trails
- Identifying trails that lead to private property
- Flagging and clearing the new single track trails

We do not anticipate any conflicts with existing uses and hope you will be pleased with the new trails. If you have any questions regarding the work plan please contact **Roy Davies at 705-645-8403**
